4. Outcome of MoU:

The MOU between [Gitanjali B.Ed. College] and [B. Hiralal Bhakat College] achieved significant positive outcomes, enhancing academic, research, and cultural dimensions for both institutions. Despite some challenges, the collaboration has proven to be mutually beneficial, with promising prospects for future growth and development. Continued efforts and strategic planning will be essential to sustain and expand these collaborative initiatives. Under the MoU, there were several activities in terms of the student's seminar, faculty exchange programme, publication of the students' journal etc. All the aforementioned activities were conducted online mode. In such type of academic initiatives, students had got an interactive opportunity with the selected faculties of the corresponding college. There was scope of interaction for the students of both the colleges. All the concerned students experienced special academic flavour and convenience, using digital mode, rather to feel academic boredom. In the students' seminar, students got an opportunity to enrich themselves in the academic diversity. Through this exchange practice, faculties too found scope to strengthen inter/intra-cultural sensitivity and hon their intellectual competence. Moreover, all these exchange practice helped in enhancing academic link and healthy bonding among the students and faculties alike.
