## The institutional Strategic/ perspective plan is effectively deployed

The institutional perspective plan aligns with the vision and mission of the institution which are the constant driving factors for improving academic policies and strategies.

It is effectively deployed on bringing quality improvements in the areas of:

- Curricular planning and implementation
- Enhancing Academic flexibility and capacity building
- Teaching-learning process
- Research, collaboration and extension activities
- Academic infrastructural facilities
- Student support activities and student progression
- Internal quality assurance system
- Governance, leadership and management

At the beginning of the academic year, the college authority chalks out the strategic plan of events and activities which will support the growth and development in these key areas and at the end of the year, a review is taken about implementation and the outcomes of the perspective plans. One such broad area in which the Institutional perspectives and strategic plan has been successfully implemented is that of introduction of new courses and programs. This has been achieved through the deployment of Action Plan for the following initiatives:

- MOUs signed with other college for training and curriculum implementation
- New certificate courses are introduced keeping in mind their relevance and market needs.
