Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

The vision of Hiralal Bhakat College is to provide inclusive education for inculcating human values, professionalism and scientific temperament to all sections of students including scheduled tribes, scheduled castes, other backward communities and religious minorities with special focus on female students.

The mission statements of the College are as follows:

- a. To provide ample scope for multifaceted development of local youths irrespective of religion, race, caste, gender.
- b. To provide quality higher education to its students. To provide and promote inclusive education for all.
- c. To develop academic programmes based on local/regional/national/Global needs.
- d. To pursue student-centric learning for self-development and skill development among students.
- e. To nurture social awareness and responsibilities among its students.

6.2 Does the Institution has a management Information System

NO

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

At the beginning of every academic session the Principal/Teacher-in-Charge convenes a meeting of the Teachers' Council to lay down the general principles for pursuing academic calendar. Then the broad principles are determined in the meeting of the academic sub-committee. The HODs of all departments are members of the academic sub-committee by default, and the Principal/Teacher-in-Charge superintends the process of development of the curriculum as laid down by the university to deploy the same to each department with a close eye on feasibility and convenience. Each department sets up its routine in such a way that the curriculum is distributed automatically without impairing the academic interest of anybody concerned. As the institution is not directly involved in the design and development of the curriculum prepared by the University, it has no other option but to implement the same curriculum with as much finesse as possible. The teachers take great efforts to implement the curriculum with several teaching methods and teaching aids which are up to date. Class tests, field tours and study tours are regularly arranged so that students are better involved in the implementation of the curriculum. However, as certain teachers of the college as members of the Board of Studies, they do have certain opinions about the curriculum which they officially communicate to the University. Further, when the University arranges workshops before implementing the curriculum, teachers of the college join the same and express their opinions on the curriculum, and the University reaches a decision after collective opinions in the matter are communicated formally to the University.

6.3.2 Teaching and Learning

At the beginning of each academic session the college prepares the academic calendar based on the calendar of the University of Burdwan to which the College is affiliated. This calendar is distributed to the students at the time of admission every year. Since the college is affiliated to the University of Burdwan the syllabus is primarily framed by the university. Many of the teachers contribute in syllabus revision of the University being members of relevant Boards of Study. Teachers act as the experts in the syllabus revision process and participate in the workshops conducted by the University for Syllabus Revision. Depending on the syllabus stipulated by the university and college academic calendar, each department frames the teaching plan, distributing the classes per paper / topic for every teacher at the beginning of the academic session. Some teachers individually maintain a lesson plan to complete the syllabus within a reasonable time. Some departments distribute study materials to the students. Libraries are effectively used as ready reference of study materials. Intra-departmental meetings are held from time to time to review the progress of study in the department in order to complete the syllabus, and for proper understanding of the subject by the students.

6.3.3 Examination and Evaluation

The College holds three evaluative tests each year. These examinations are held for first-year, second-year and third-year students. Results of these examinations are published. Answer scripts are shown to the students and the scheme of evaluation is explained. Model answers are discussed for the benefit of the students. Class tests and tutorial classes are held regularly by the departments in order to impart more knowledge and skills. Besides these tests, students' presentation in seminars, projects in the relevant subjects etc. also help in monitoring students' performance before the university examinations.

6.3.4 Research and Development

The college has no provision for guiding research scholars. But the teaching faculty is encouraged to participate in seminars and symposia, to organise seminars, to publish research articles in several reputed journals and to send research proposals to several funding agencies like UGC for approval.

6.3.5 Library, ICT and physical infrastructure / instrumentation

The college authority always encourages teachers to practice innovative method provided the fund permits the same. Whenever any new grant is available the authority asks for proposals from the departments for utilization of the funds. The departments are given full liberty to choose the equipments / softwares / materials to be purchased. The College has a well-equipped fully computerized library having more than 12,000 books including text books, reference books, advanced books, journals and periodicals on various subjects, which remains open from 10.30 am to 4.30 pm on every working day. There are many old and rare books and journals also. Teachers and students visit the library regularly. There are other support services available in the library. For example, Computer facility is available in the library. Both teachers and students have access to internet service within the college hour free of any cost. There is broad band connection in the library. Photocopying facility is available for the students and staff on payment of charge. Free Internet facility is provided in the Library during College hours. In these ways the library contributes a lot in the teaching-learning process of the college. Besides these the question papers of college and university examinations of previous years are preserved and are available in the library for helping the students in preparation for examinations. Books are used by the teachers not only for classroom teaching, but for advanced level of learning.

6.3.6 Human Resource Management

The college tries its level-best to encourage all activities required to academically 'recharge' teachers. Some of the measures taken in this direction are as follows:

- a. Providing study leave (for completing specific research work)
 - b. The college also allows teachers to attend Orientation and Refresher Courses as per UGC norms and schedules.
 - c. The college brings to the notice of teachers each and every research grant, particularly those offered by the UGC. It plays a proactive role in preparing and submitting such proposal.
 - d. The college, as a matter of policy, tries to avail of all opportunities for organizing State/National/International Seminars, Conferences and Workshops. This alacrity of the college in this regard is reflected in the number of successful seminars that has been organized, particularly those sponsored by the UGC and from the college fund.
 - e. The college is positively responsive to teachers' proposals to pursue higher studies/research work. Such proposals are placed before the Governing Body by the Teacher-in-Charge after consultations with the Department concerned. In the recent past all such research proposals have been sanctioned.
 - f. The college encourages teachers to attend National and International level seminars. The college allows the necessary leave to the teachers for attending these seminars.
- The administrative and technical support staff, too, are encouraged with several incentives to stay professionally committed to their work.

6.3.7 Faculty and Staff recruitment

The Full-time teaching staff are recruited on recommendation of the West Bengal College service Commission, while the Guest and Part-time teachers and non-teaching staff are recruited by the college as per provisions and regulations set down by the Govt. Of West Bengal.

6.3.8 Industry Interaction / Collaboration

As of now, there is no such collaboration

6.3.9 Admission of Students

The College ensures publicity in the admission process as under:

a) Annual Prospectus: The institute publishes the annual prospectus which contains detailed information about the courses, academic calendar including process of admission and the facilities provided by the College. The academic, administrative and financial aspects regarding the admission process is clearly mentioned in the prospectus. A copy of prospectus is circulated among the higher secondary level schools.

b) Others (Institutional Notice Board and website): Detailed information regarding the admission process is displayed in the college notice board and the website.

The College ensures transparency as follows:
The College adheres to the scheduled dates for receipt of application and relevant information pertaining to admission as provided in the annual prospectus. The selection of students to the college is done through the college admission committee on a purely merit-based system under the provisions set by the Govt. of West Bengal.

SEE ANNEXURE II

****Provide the details in annexure (annexure need to be numbered as i, ii,iii)***

- 7.4 Contribution to environmental awareness / protection

The NSS volunteers plant trees within the campus from time to time that maintains biodiversity and facilitates carbon sequestration as well. The gardens of the campus are maintained by paid staff under the supervision of the college authority. Cutting down standing trees on the college ground has been strictly prohibited so as to prevent carbon emission which can be regarded as a first step towards the achievement of carbon neutrality. Solid wastes are disposed in closed containers stationed at various points within the college premises which are regularly cleaned away by paid staff. E-wastes are stored in a separate area within the college which are to be disposed with the municipality at regular intervals. The college has installed a high-grade generator which supplements the electricity supply during power-cuts keeping the carbon emission at a bare minimum.

TWO BEST PRACTICES

a. Title of Practice 1

Use of Audio-Visual tools in the classroom and organisation of departmental seminars and extended lectures

b. Goal

The goal is to make the students better understand the matter presented before them in the classroom so that they can match what they imagine with what they see and hear and also that they can have a fair idea of the matter presented before them. Also, through departmental seminars, the students can present their own critical interpretations and ideas and can make use of the ICT facilities. Extended lectures can orient them with new matters and can let them interact with resource persons, which ultimately will enrich them.

c. The Context

In traditional chalk and talk method used so far it has been seen that students often fail to identify a matter and to locate the matter in a particular context. This makes them uninterested in the matter and as a result they lose interest in classroom teaching.

d. The Practice

With a view to implementing the practice, the college has purchased at different times as many as four LCD projectors and five audio systems which are used by teachers in the classrooms. Departmental seminars are organised time and often, and resource persons from other colleges and universities are invited in extended lectures of 90 minutes per resource person, followed by interactions with students.

e. Evidence of Success

The practice has seen significant improvements in class attendance by the students, particularly in the literature subjects and History.

f. Problems Encountered and Resources Required

The practice requires teachers who are proficient in handling the equipments. After some informal technical training sessions the problems faced in the practice have been successfully sorted out. In organising the departmental seminars and inviting the resource persons, the college has so far faced no major problems.

a. Title of the Practice 2
Remedial Coaching

b. Goal :
To facilitate students from various backward classes with extra classes and study materials.

c. The Context:
Being 1st Generation learners many of our students suffer from a lack of rudimentary knowledge of any given subjects. It makes the teaching process unduly difficult. Remedial coaching steps in to complement what they already know with what they should know.

d. The Practice:
This facility is primarily for the SC, ST, OBC and Minority students. At the onset of the Academic Year we invite applications from the seemingly deserving candidates. We divide all applicants into several segments to suit the convenience of our teaching faculties.

e. Evidence of Success:
As most of the students belong to the formative stage academically, we are not in a position yet to set for ourselves a target on the basis of the success of our students in Higher Education. Nevertheless this facility has brought down the drop out rate quite encouragingly. In case of our Honours students it can be said that Remedial Coaching has proved to be effective. It has also been observed that some students of our target communities have excelled in the University Examination. Besides it is also evident that a good number of students who have got admitted to M.A. Courses, have been benefited from this course.

f. Problems Encountered and Resources Required
The scheme requires full-fledged classroom facilities, like ICT, and also separate library needs to be set up.
